

INTEGRATED DATA CENTER SOLUTIONS

We start with intelligent cabinet management...

Raritan's intelligent rack solutions, featuring:

- Power Management
- Environment Monitoring
- Asset Management
- Remote Access and Control

And extend to comprehensive physical infrastructure.

Extended Legrand solutions:

- Racks, Cabinets, and Cable Management
- Thermal Management for Racks and Aisles
- Copper and Fiber Cabling Solutions
- Overhead Raceways, Trays, and Runways

Why Raritan?

Raritan offers the most advanced technology solutions to help you manage, maintain and operate your critical IT equipment to its maximum potential: From power management and remote server access products, to Legrand's connectivity and physical infrastructure solutions.

Build on 30 years of engineering expertise and customer insight, we're proven to offer reliable solutions to efficiently manage your unique data center rack and white space environment.

POWER MANAGEMENT

All power management products are powered by Raritan Xerus™ technology, ensuring maximum performance of every application.

Intelligent Rack PDU: PX

- Superior design for perfect data center fit and flexibility
- Engineered and battle tested for uptime
- Easier to use, lower total cost of ownership

Hybrid Rack Transfer Switches

- The most reliable way to power single corded devices

Branch Circuit and Busway Monitoring

- Monitor the entire data center white space power chain

Inline Meters and Rack Controller

- Add metering and environmental data to other vendors' basic power strips

Power IQ Monitoring Software

- Real-time and trend management on power, energy, capacity, and environment

REMOTE SERVER ACCESS AND CONTROL

KVM-over-IP Switches: Dominion® KX III

- Java-free, BIOS-level, server access for IT & broadcast applications
- High performance VGA/DVI/HDMI and DisplayPort video at 30 frames-per-second
- Military grade security

Serial-over-IP Console Servers: Dominion® SX II

- Secure, remote, Java free management of routers, switches and Linux/Unix servers

KVM/Serial Console Combo Switch: Dominion® KSX II

- Combined KVM-over-IP and serial over IP solution
- Ideal for remote locations and branch offices

Single Port IP KVM Switch: Dominion® KX II-101-V2

- Secure KVM-over-IP access and control in a single port, for small spaces, labs, closets, colos and remote locations

KVM Console Drawer

- At-the-rack KVM access to servers and KVM switches

Centralized Management: CommandCenter® Secure Gateway

- Secure, consolidated remote IP access and control of virtual infrastructure, blades, rack servers, serial devices, Raritan switches and PDUs

POWER MANAGEMENT

RACK, CABINET, AND CABLE MANAGEMENT

REMOTE SERVER ACCESS AND CONTROL

THERMAL MANAGEMENT FOR RACKS AND AISLES

ENVIRONMENTAL MONITORING

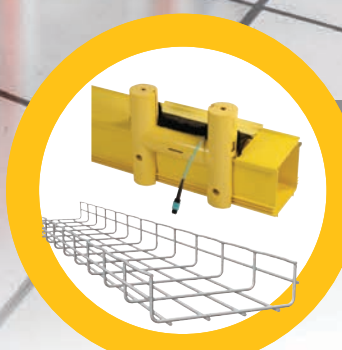

COPPER AND FIBER CABLING SOLUTIONS

ASSET MANAGEMENT

OVERHEAD RACEWAYS, TRAYS, AND RUNWAYS

ENVIRONMENTAL MONITORING/SENSORS

Raritan plug-and-play sensors include:

Temperature and Humidity	Vibration
Airflow	Water Leak Detection
Air Pressure	Contact Closure
Proximity	And more

ASSET MANAGEMENT

Asset Tags and Sensors

- Real-time inventory of all assets
- Instantaneous audit and capacity management

Legrand delivers comprehensive network infrastructure to meet the expanding requirements of today's data centers. These systems support next generation technologies with flexibility for future growth and energy and installation efficiencies, united by superior design.

RACK, CABINET, AND CABLE MANAGEMENT

- Fully configurable
- Integrated cable management and airflow
- Channel racks, cabinets, 4-post racks, overhead cable pathway racks, horizontal cable managers, high capacity vertical managers

THERMAL MANAGEMENT FOR RACKS AND AISLES

- Thermal Aisle Containment and Integrated Cabinet Cooling
- Implement best airflow practices using the available air dams, bottom panels, floor seal kit, blanking panels, front to rear blanking panels, airflow baffles and chimneys

COPPER AND FIBER CABLING SOLUTIONS

- Pre-Terminated Solutions, Fiber and Copper Connectivity
- Components engineered to meet stringent industry requirements including TIA and IEEE
- Designed to support any speed and density, while enabling more efficient moves, adds or changes
- Supported by a full range of enclosures and patch panels, delivering better aesthetics while maximizing channel performance

OVERHEAD RACEWAYS, TRAYS, AND RUNWAYS

- Tubular Runway, Wire Mesh Cable Tray and Fiber Raceway
- Route and protect cords between termination equipment, patch panels and fiber optic splicing cabinets or frames
- Simple to configure and install

WE DON'T JUST MANUFACTURE PRODUCTS, WE ENGINEER SOLUTIONS.

Integrated Solutions from:

Raritan®

Cablofil®

Electrorack®

Ortronics®

Quiktron®

Wiremold®
